

Journal of Economics and Business

Aims and Scope
Journal of Economics and Business:
Studies in Financial and Corporate Behavior

The Journal of Economics and Business publishes high quality research papers in all fields of finance and in closely related fields of economics. The Journal is interested in both theoretical and applied research with an emphasis on topics in corporate finance, financial markets and institutions, and investments. Research in real estate, insurance, monetary theory and policy, and industrial organization is also welcomed. Papers that deal with the relation between the financial structure of firms and the industrial structure of the product market are especially encouraged.

Editorial Policy:

All papers are double-blind refereed. Authors should expect to receive two referee reports and a letter of recommendation from one of the Journal's editors.

Special Issues:

The Journal publishes a special issue every year. This issue typically deals with an important research topic and is edited by a recognized expert in the field.
